

JONCO INDUSTRIES

Custom Foam Inventory Management System

JONCO Industries has the innovative system you need to ensure positive tool control management: Foam Control – Custom Inventory Management System.

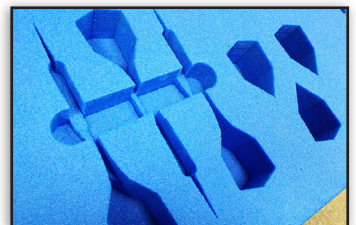

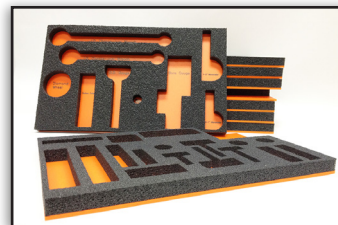

Foam Control are custom foam liners that you can count on to safely organize and protect your tools or any of your important equipment. Custom cut to fit any tool, equipment and toolbox, storage box. Multi-layered foam cuts and various thicknesses.

- Precise CAD tool outlines.
- Many different storage options.
- Several color combinations and types of foam.
- Quick turnaround.
- Easy foam kit reordering process.

Quality accessories improve the performance and versatility of your stored equipment, so organize your tools and equipment and add convenience to any job.

JONCO's Foam Control system is also used in product packaging, protective packaging, marketing kits, and many more.
